# BASE BALL

By A. G. SPALDING

PRICE, \$1.00 NET

*A book of 600 pages, profusely illustrated with over 100 full page engravings, and having 16 forceful cartoons by Homer C. Davenport, the famous American artist.*

The above work should have a place in every public library in this country, as also in the libraries of public schools and private houses.

The author, Mr. A. G. Spalding, is conceded, always, everywhere, and by everybody, to have the best equipment of any living writer to treat the subject that forms the text of this remarkable volume, viz., the story of the origin, development and evolution of Base Ball, the National Game of our country.

Almost from the very inception of the game until the present time—as player, manager and magnate—Mr. Spalding has been closely identified with its interests. Not infrequently he has been called upon in times of emergency to prevent threatened disaster. But for him the National Game would have been syndicated and controlled by elements whose interests were purely selfish and personal.

The book is a veritable repository of information concerning players, clubs and personalities connected with the game in its early days, and is written in a most interesting style, interspersed with enlivening anecdotes and accounts of events that have not heretofore been published.

The response on the part of the press and the public to Mr. Spalding's efforts to perpetuate the early history of the National Game has been very encouraging and he is in receipt of hundreds of letters and notices, a few of which are here given.

**BARNEY DREYFUSS, owner of the Pittsburgh National League club:**—“It does honor to author as well as the game. I have enjoyed reading it very much.”

**New York Sun:**—“There is a mass of interesting information regarding base ball, as might be expected, in Mr. Spalding's book. It is safe to say that before Spalding there was no base ball. The book is no record of games and players, but it is historical in a broader sense, and the author is able to give his personal decisive testimony about many disputed points.”

Evidence of such an athletic meeting held during the preceding calendar year shall be sent to the Secretary of the Association before the Annual Convention.

SEC. 6. Each associate college agrees to accept the rules of this Association.

SEC. 7. Any member of the Association that is not represented at least once in two consecutive years, either by actual competition at the Annual Field Meeting by not less than three men or at

### ARTICLE IV

#### GOVERNMENT

SECTION 1. The government and general supervision of the affairs of this Association shall be intrusted to a convention composed of managers and assistant managers or acting managers, regularly elected by the associate colleges.

SEC. 2. The Officers of this Association shall be a President, Vice-President, Secretary, and Treasurer, elected by ballot at the Annual Convention by a majority vote of all the colleges there represented. No candidate for an office of the Association shall be eligible unless at the time of his election he is an undergraduate in one of the members of the Association. By "undergraduate" is meant an undergraduate in any department. No candidate for the office of Vice-President, Secretary, or Treasurer, shall be eligible whose college course will end sooner than one year from the date of his election. Any vacancies in the list of Officers occurring during the year from any cause whatsoever shall be filled by the Executive Committee.

SEC. 3. The immediate management of this Association shall be intrusted to an Executive Committee, consisting of the President, the retiring Secretary, the Treasurer, Ex-Officio, and three members appointed by the President at the Annual Convention of the Association for a term of one year. The Advisory Committee shall have the right of speech at the Annual Convention, and at all meetings of the Executive Committee, but shall have no vote.

SEC. 6. The Manager of the Track Team of any college in which a vacancy occurs among the Officers or the Executive Committee of this Association, shall notify the Secretary within fourteen days of such vacancy.

## ARTICLE V

### FINANCE

SECTION 1. Each college of the Association shall pay Fifteen Dollars as a yearly assessment, which sum shall be paid on or before the date on which the entries for the Annual Field Meeting close, or contestants from that college shall be debarred from taking part in the Field Meetings.

SEC. 2. When a deficiency shall occur, an assessment shall be levied by the Executive Committee equally on the Associate Colleges to meet said deficiency.

SEC. 3. The Executive Committee may declare a dividend from the surplus in excess of three hundred dollars (\$300), in the treasury at the time of the Annual Convention. This shall be divided among the colleges entitled to receive the same in the following proportions: The total number of the competitors actually competing times the number of miles from their respective colleges to the place of the Field Meet, divided into the dividend declared, will give the apportionment per man per mile. The college or colleges in whose city or town the Annual Field Meeting is held, shall participate in such dividend based as one mile from the place of the Meeting. Only those colleges represented by at least eight different competitors and in at least three different events at the previous Field Meeting shall participate in this dividend.

SEC. 4. All bills against the Association shall receive the approval and signature of the President before payment by the Treasurer.

SEC. 5. Expenses incurred in executing the business of the Association shall be paid the Officers, the Executive Committee and such other committees only as are duly appointed by the Convention or the President.

The Secretary, however, must serve an official notice upon the college against which the charges are preferred, and also notify the other colleges of the Association of such proceedings at least ten days before the Annual Convention.

SEC. 2. Causes for which a college may be expelled from the Association shall be: Failure to pay all assessments and fines under the conditions hereinbefore specified; refusal to abide by the decisions of the referee; participation in any transaction by which the good name of the Association may be imperiled. Any college so expelled can be readmitted only in the manner in which outside colleges become members.

## ARTICLE VII

## REPRESENTATION

SECTION 1. At all meetings each member of the Association may be represented by no more than three undergraduate delegates, each of whom may take part in all discussions; but, in the decision of any matter, each member of the Association shall be entitled to only one vote, said vote to be cast by an accredited undergraduate delegate. No voting by proxy shall be allowed.

SEC. 2. When the President of the Association is the only representative of his college, that college shall lose its vote, except in case of a tie.

SEC. 3. With the assent of the Executive Committee any member or ex-member of an Executive or Advisory Committee, or any former officer, shall be allowed to enter into discussion but not to vote, at any meeting of the Association or its Executive Committee.

SEC. 2. Special conventions of this Association may be called by the President or at the request of any three colleges of the Association, provided that a notice of such meeting shall be

sent to each college at least ten days before the date assigned for such meeting.

## ARTICLE XVIII RELAY RACING RULES WITH BATON

SECTION 1. Relay racing shall be between teams of two or more contestants, no one of whom shall run more than one relay, and only those contestants shall be allowed to run in a final heat who have competed in the trial heats.

SEC. 2. A round baton of solid wood or other lighter material ten inches long by one and one-quarter inches in diameter, shall be carried by each contestant and, as hereafter prescribed in Section 3, shall be passed by each contestant to his team-mate succeeding him in the next relay of the race.

SEC. 3. A line shall be drawn ten yards on each side of the starting line. Between these two lines each runner must pass the baton to his team-mate succeeding him in the next relay of the race. The baton must be actually passed, not thrown or dropped by a contestant and picked up by the one succeeding him. There shall be special judges whose sole duty it shall be to see that the baton is actually passed within the twenty yards referred to. Failure to so pass the baton shall disqualify the team from competition in the relay event in which it has occurred.

SEC. 4. The same rules with reference to fouling, coaching or impeding a runner in any manner shall apply to relay racing, as in all other running events, except that within the twenty yards within which the baton is to be passed, the contestant passing same and the one to whom it is passed may overlap each other.

SEC. 5. The relative positions of the teams on the starting line shall be drawn for and these positions shall be kept by the teams throughout the race.

SEC. 6. In handicap relay races the competitor who is to run the first relay is to have the advantage of the total handicap allowed his team, unless the rules of the contest otherwise pro-

vide, and an announcement must be made as to the handicaps and distances which each contestant shall run. The rules and regulations as to relay races where there is no handicap shall apply to handicap events; each contestant being required to run his full distance, pass the baton within the required twenty yards, etc.

#### WITHOUT BATON

SEC. 7. A line shall be drawn ten yards on each side of the starting line. Between these two lines each runner must touch the succeeding runner. Failure to do this shall disqualify the team in that event. There shall be Special Judges whose duties it shall be to see that all touches are properly made.

SEC. 8. The same rules with reference to fouling, coaching or impeding a runner in any manner, apply to relay racing as to other events.

Explanation. Each runner must actually touch the succeeding runner; overlapping or making an attempt and failing cannot be considered a touch-off. The twenty yards is given for the sole purpose of making a man wait to be touched and the referee has no other alternative than to disqualify an athlete who fails to touch the succeeding runner on his attempt, which latter, however, shall start from the starting point.

SEC. 9. In the case of a handicap relay race, the runner on the first relay is granted the total handicap allowed each team.

SEC. 10. No member of the relay, in order to relieve his teammate, can run back of the line. No man can run two relays in any one team.

SEC. 11. The position of the teams must be drawn for. Only those who compete in the trial heats are allowed to run in the finals.

SEC. 12. In all relay races an announcement must be made as to what distance each man is to run in his relay. Any man failing to run the distance required shall cause his team to be disqualified. And the failing of any one man to run his full relay shall cause the team to be disqualified.

SEC. 2. Points in the Annual Field Meeting shall be counted as follows: For first place, five points; for second place, three points; for third place, two points; for fourth place, one point. In case of a tie in any event the sum of the points for the places tied shall be divided.

SEC. 3. In case two or more colleges score an equal number of points, if one of these colleges shall have been champion for the previous year, that college shall continue to hold the championship and the cup for the ensuing year. In the case of a tie the permanent award shall be held over for decision by the result of the next Annual Field Meeting. (Note. The competition for the present seven year cup began in 1912.)

## ARTICLE VI

## CROSS-COUNTRY RUN

SEC. 1. The college shall be champion which shall score the least number of points at the Annual Run.

SEC. 2. Points shall be counted as follows: For first place, one point; for second place, two points; for third place, three points; etc. Each competing member of the Association shall have scored against it the total of points tallied by the first five (5) contestants competing for such member, and every contestant shall be scored in the place he finishes, except as provided in Section 3.

SEC. 3. If less than five contestants representing a member of the Association finish, such member shall receive no rank in the contest, and the individual contestants representing such member shall not be scored in determining the championship and the position of members of other teams.

SEC. 4. In case of two or more members of the Association scoring an equal number of points, then if one of these members shall have been champion for the previous year, that member shall continue to hold the championship for the ensuing year.

## SPALDING VAULTING POLES

**SPECIAL NOTE**—It is our endeavor always to supply Athletic Equipment of the very highest quality, and which is at the same time made of the most satisfactory material and in the best possible manner for the purpose intended.

We have discontinued making Spruce Vaulting Poles because we find ourselves unable to recommend their use, owing to danger of breakage and possibility of serious injury to user. Bamboo poles we do recommend, having proven to our satisfaction that they are superior for vaulting to poles made of any wood we know of, and, furthermore, if they do break while in use, the danger of personal injury is very remote.

### Spalding Bamboo Vaulting Poles

#### INDOOR AND OUTDOOR STYLES

Owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, except where they are continuous. Much of the real strength of the pole is in the joints. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable, except where the season check is wide open and extends through several sections on one side. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

# Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy. Without a definite and Standard Mercantile Policy, it is impossible for a Manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that 16 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

"The Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair and legitimate profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

"The Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

*First.*—The user is assured of genuine Official Standard Athletic Goods.

*Second.*—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

This briefly, is "The Spalding Policy," which has already been in successful operation for the past 16 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

# Standard Quality

---

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-nine years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.
